INTRODUCTION

Evil-teasing is mainly three kinds :- Verbal, Gestures, and action.

Evil-teasing, the act of publicly troubling and annoying women by using offensive language and behaviour. Evil-teasing is harassment on girls and women. There are many police committee, SAE teams, Barosa centres, Saki and dial 100. Why do boys do evil-teasing because, there parents behaviour, surrounding peoples and friends, Films / Movies, etc. As per law accused should punish ^{as per} IPC (Indian penal code) they should be punish with fine and imprisonment.

The impact of evil-teasing on girls and women they feel anger, shame, humiliation and fear of rape. They also didn't get any opportunities for education, career, jobs, political roles and social participation. Evil-teasing is done by boys because of seeing them in a wrong way. That's why day by day evil-teasing was increasing in our society.

RESEARCH

METHODOLOGY

For knowing briefly about the topic we researched on this topic and we went to some BHAROSA centres and SHE centre and asked about our topic. And to conduct the research we asked few questions to them. Then, we were answered by them. After overveiwing we tried to know the solutions for the issue faced by them. We also noted their opinions while interviewing and one thing we strictly followed during the research is not to ask many personal questions to the victims in the centres, and the questions which may make them violent or offend. Because, if such thing happens it will lead to a negative thought in their mind. Because, they will be mentally - disturbed and they fell afraid and lonely. To complete the research we tried to find the problems of victims, who faced these kind of issues like, ragging, Harassment, Bullying and teasing.

FIELD VISIT

As we conducted field work, we went to many streets & SP office. In the SP office we met and asked question to the SI & SP madam & Bharossa and also she teams. We asked questions, what is eve-teasing, why do mens & boys do eve-teasing, prevention of eve-teasing. They replied that, Eve-teasing is a publicly troubling and annoying women by using offensive language and behaviour. Mens & boys do eve-teasing inspired by films/movies where eve-teasing is seen as flirtious. We can prevent eve-teasing by making women and girls are to be self-confident and make them aware of it.

When we went to the streets we met so many people, we heard so many answers, like, a house wife said, girls should be obedient and they should learn very well, and don't do any type of bad things, without knowing any detail information about it. A shopkeeper said girls should wear traditional clothes. Because of wearing modern dresses, boys are doing like this. He said that mistakes are done by girls. Another person said that girls should be self-confident and they have to protect themselves in any situation for that they have to learn like karrate, kungfu, marshalads etc related to self-defense. Like this our society was thinking about eve-teasing on girls.
