To Whomsoever It May Concern

Compassionate Citizenship Program organized by COVA is a good program. This program is the need of the day for today's society. The topics chosen by COVA has great impact directly on the children and the society. The topics like (1) Caring for elders (2) Budgetary management (3) The problems faced by parents etc, were discussed amongst students to prepare project reports made them to think over and enhanced their social responsibility.

This kind of learning will help the students to grow up as responsible citizens. It's a focused and planned program for the purpose of improving the social consciousness.

Above all I would like to congratulate COVA dignitaries who have organized and prepared even the course material and conducted classes, discussions on the topics were helpful for attitudal transformation of the students.

Hope this may be continued in future and if possible made a part of curriculum.

I would like to extend a warm thank you for COVA Organisation for organizing this amazing programme not only the programme was very informative but the training material and session that was provided was also very interesting and impactful to learn about social issues.

It's more than two academic years of our reciprocity with COVA and brought a outstanding change in students academic performance.

The topics which were selected by COVA were very interesting for students the methodology is very effective.

Students are now taking their own responsibilities towards society and have changed the perspective of many peoples. They become a social activities and now bringing the different social issues by themselves to talk on.

The program conducted by COVA are time bounded and includes a habit loop where the students are trained with socially active habits with appreciation and rewards.

Each and every officials of cova Network are very cooperative and do connects with deep roots of students perspective and attitude which I believe have brought an outstanding results.

I want to thank you, your teams which was involved in the process of making this programme so productive it was a great job done, and we will look forward for participating with you.

Sincerely,

A. puabha soni.

- COVA - Compassionate citizenship programme was conducting from past two years in our school very effectively by the mentors.
- The topics were chosen to the society related issues such as child labour, Dowry, Participatory budgeting and care of elders.
- orientations ~~by~~ digitally conducted by mentors in systematic way.
- children prepared questionnaires also regarding these topics.
- children were passionate in doing these projects and displaying them.
- As a part, they went to oldage homes orphanages, hospitals for knowing about care of elders and observed their problems.
- for Dowry related issues, they did survey and they even did interview with police regarding dowry cases and asked several doubts regarding the issue.

- For Budgeting, they requested principal, mam that they will plan for budget for the Annual day.
- For child labour, they visited hotels, various shops and interviewed the children working over there.
- Students want these projects in the future also to build up their skills other than Academics.
- After this project, children had lot of variation like respecting elders than previously, showing interest in budgeting for their requirement at home.

We thank a lot for the COVA Team for giving this wonderful opportunity to participate students in this program. Hope we expect the same in the future.

Thanking you,

MRS Charakbed girls 1.

Sir,

We would like to Express our heartfelt appreciation for the general awakening program provided by COVA Organisation which consist of topics such care for elders, public service, Environmental issues like, No plastic, Social media fake news and Eve teasing

Your Substantial Contribution in giving information to our students with the help of necessary resources and deliberate speeches of dignitaries inspired their minds.

Especially our students learnt about things like how to respect elders, how to be safe from social media, how to conserve our environment by using single usage plastic and cloth bags.

Once again thank you for all that your team did and we appreciate your efforts in educating especially girls.

COVA

Sir,

We felt very happy for having a nice programme conducted by your COVA team in our school. The lecturers from Palamuru University like Sri Rangappa and others contributed a lot in educating our students about observing moral values like respecting elders and taking care of old age people.

Your respected team members brought good awareness in our students about social media problems like spreading fake news, blackmailing because of sharing pictures and photos etc.,... Vast usage of mobile phones, Youtube and its adverse effects, Cyber Crimes and so on.

There is a large list of fields your COVA staff brought awareness like drugs usage and its impacts, superstitions, child labour, human trafficking, environment protection like Save Water, Save Earth, 'Say No to plastic' through which our students are very much enlightened and enjoyed a lot.

Our girl students are very much impressed through COVA about 'Girl Education', gender bias, teenage problems, love affairs failures, eve-teasing, child marriages, .... good touch and bad touch ....

Finally, it is very useful and required more programmes to be conducted by COVA to get awareness in students, parents and society at large for the healthy development of our country.

With many thanks from
